Impeachment.

It will be seen by reference to the proceedings of the Legislature in another column, that a Resolution has passed the House of Representatives to impeach Gov. Holden for high crimes and misdemeanors.

This is a very serious question, and is likely to consume a great deal of time, before final action is taken.

We do not intend saying anything in defense of Gov. Holden, what we might say would avail nothing, and besides we are convinced, that if he does not deserve impeachment, his administration certainly deserves the censure of all good men who are interested in the welfare of our State; however, we cannot endorse the grounds upon which the Democrats propose to impeach him. As far as we can see, there is nothing charged against the Governor in the resolutions of impeachment, except his acts in calling out the Militia to suppress the outrages of the Ku Klux; this action of the Governor we believe was right, and we are of the opinion that more troops will have to be scattered through different parts of the State yet, either by the State or United States, before these outrages will be stopped. We look upon the action of the Legislature on this question, so far, as purely political, and believe that the movers of the measure, are actuated more from political prejudices, than from any general good that they expect to gain for the State. Looking upon the measure in this light, of course we cannot endorse the action that has been taken upon the matter so far, and if we had a vote on the question, we should certainly vote against impeachment, unless other, and stronger articles were presented.

We think the matter should be considered calmly and dispassionately, and if evidence sufficient is shown, to convict the Governor of the grave charges that have been made against him, no person would go stronger for his impeachment, than we would, but we must first see the proof before we can endorse the move.

Congressional.

Both houses of Congress met on the 5th inst. Dixon and Manning, from this State, were both seated upon taking the old oath, they having had their disabilities removed.

The President's Message was read in both Houses, and we believe is entirely satisfactory to the Republican party throughout the country. We give a synopsis in another column.

The House of Representatives have passed a bill abolishing the franking privilege.

Bills have been presented "to prevent assessments of money upon Government employees, for political or other purposes," "to establish the Western Judicial district of North Carolina," "to abolish the income tax," "to abolish Admiral and Vice-Admiral in the Navy," "to revive American shipping," "to abolish the Internal Revenue Bureau."

These are, all important matters, and will be noticed by us as they are acted upon by Congress.

Democratic Consistency.

W. A. Smith, republican and John A. Gilmer, Jr., democrat were elected to the Senate from the — district. Mr. Smith received a majority of 380 votes.

Mr. Gilmer, had a majority of 17 votes. Yet the Senate decides that Mr. Smith is not entitled to his seat, and have ousted him, on the ground that Alamance county was in a State of insurrection at the time of the election, but they still retain Mr. Gilmer. This is what we call Democratic consistency where was Mr. Whiteside and how did he vote. Let him explain this matter to his constituents.

Convention.

The Democrats of the Legislature seem bent on calling a Convention, and from the latest proceedings we have seen on the subject, we judge that an election will be held either in February, or March, at which time we will be called up to vote for, against a Convention, and at the same time for delegates to the Convention.

The Convention is to be a restricted one, and only allowed to do certain things. Booh-o-o! It is really amusing, to see how these Democratic Solomon's, can devise traps to deceive the people.

A Convention is the Supreme power of the State, and will only laugh at the attempts to restrict its powers. We warn the people to vote against this proposition for a Convention, it is "a snake in the grass," and as sure as it is called, you are bit.

The Ku Klux.

Our latest advices from Cleveland, state that the Ku Klux outlaws are still riding every night, and committing numerous outrages wherever they go. The Legislature has repealed the law, to punish these mid-night assassins, and Messrs. Whiteside and McAfee, have shown themselves, either members of the Ku Klux Klan, or friends to the members thereof, by voting to repeal the law to punish them. We hope the people will bear this mind in the future, for such men are unworthy of your support. Our opinion is, that President Grant will have to take the matter into his hands, and send some U. S. Troops to Cleveland, and other Counties in the State, before can have peace.

Repealing our Incorporation Act.

It will be remembered that we noticed some time since the Bill introduced in the Senate by Mr. Whiteside, to repeal an act extending the corporate limits of Rutherfordton, the bill passed the Senate, and the following proceedings were had in the House on the bill:

On motion of Mr. McAfee, the rules were suspended and bill to repeal an act to extend the corporate limits of the town of Rutherfordton was taken up.

Mr. Justice moved to amend by submitting the bill to the qualified voters of said town. Lost.

Mr. Hargrove spoke in favor of the amendment offered by Mr. Justice, and said that it proposed to let the people of Rutherfordton, including the former boundaries, have their way in the matters of boundaries, and he thought it ought to pass. He had voted for the amendment allowing all the people included in the present limits of the town to accept or reject this change in their charter, and the House had refused to adopt it, and he would now vote to leave the matter to the voters in the old limits.

The gentleman from Beaufort said that the current of legislation for the past few years had been in favor of the colored people. Mr. Hargrove said he hoped the Legislature would not now be against them; he thought ten days in any town, thirty days in the county and twelve months in the State was sufficient to entitle a man to vote in any election.

Mr. Justice moved to amend by inserting the following provision: "Provided, That this act shall not go into effect until it shall be approved by a majority of the qualified voters who now live within the old boundary of incorporation which was the corporate limits of said town before the charter was amended which this act proposes to repeal. Adopted."

The bill as amended passed its second reading.

Impeachment.

Mr. Sparrow, from the Judiciary Committee, introduced a report and resolution in reference to the impeachment of Gov. W. Holden for high crimes, and recommended its passage. The following is the report:

The Judiciary Committee, to whom was referred on the 9th of December, the following resolution, namely:

Resolved, That William W. Holden, Governor of North Carolina, be impeached of high crimes and misdemeanors in office; have considered the same and submit the following report: That William W. Holden, Governor of North Carolina, unmindful of his oath of office, did in July last, organize, arm and equip, a military force, not recognized by and in subversion of the Constitution of the State of North Carolina; which military force so unlawfully organized, was not kept under subordination to and governed by the civil power, but was, by order of the said W.

W. Holden, Governor as aforesaid, made paramount to and subservient of the civil authority.

That the said William W. Holden, Governor as aforesaid, did in the months of July and August last, without lawful warrant and authority and in defiance and subversion of the Constitution, arrest and imprison many of the peaceable and law-abiding citizens of the State, depriving them of their liberties and privileges, and did cause certain of said citizens so unlawfully arrested and imprisoned to be subjected to cruel and unusual punishments.

The said William W. Holden, Governor as aforesaid, denied to citizens, unlawfully restrained of their liberty by his authority, all remedy in the lawfulness thereof; and in defiance of the constitution, the laws, the process of the courts, he suspended the privileges of the writ of *habeas corpus*, claiming that he was Governor by "supreme law," whereby he could suspend the privileges of the said writ, when in his opinion the safety of the State required it.

In view of the matters herein set forth, combining historical facts, with statements contained in public documents, and the records of the Public Departments and the Courts, the undersigned, members of the committee, who are a majority thereof, are of the opinion, that William W. Holden, Governor of the State of North Carolina, be impeached of high crimes and misdemeanors. They therefore, recommend to the House the adoption of the resolution.

The Great Pictorial Annual.

Hestetter's United States Almanac for 1871, for distribution, gratis, throughout the United States, and all civilized countries of the Western Hemisphere, will be published about the first of January, and all who wish to understand the true philosophy of health should read and ponder the valuable suggestions it contains. In addition to an admirable medical treatise on the causes, prevention and cure of a great variety of diseases, it embraces a large amount of information interesting to the merchant, the mechanic, the miner, the farmer, the planter, and professional man; and the calculations have been made for such meridians and latitudes as are most suitable for a correct and comprehensive National Calendar.

The nature, uses, and extraordinary sanitary effects of Hestetter's Stomach Bitters, the staple tonic and alternative of more than half the Christian world, are fully set forth in its pages, which are also interspersed with pictorial illustrations, valuable receipts for the household and farm, humorous anecdotes, and other instructive and amusing reading material, original and selected. Among the Annuals to appear with the opening of the year, this will be one of the most useful, and may be had for the asking. The proprietors, Messrs. Hestetter & Smith, on receipt of a two cent stamp, will forward a copy by mail to any person who cannot procure one in his neighborhood. The Bitters are sold in every city, town and village, and are extensively used throughout the entire civilized world.

A Mammoth Establishment.

The following editorial notice of the large wholesale establishment of Messrs. Wittkowsky & Rintels, of Charlotte, N. C., we extract from the CHARLOTTE OBSERVER. We heartily endorse the statement of the OBSERVER, and ask our friends to give these enterprising gentlemen a call when they go to Charlotte.

The extensive wholesale house of Messrs. Wittkowsky & Rintels is an establishment to which our citizens may feel justly proud. The large importation of goods which they make every season indicates the extent of the trade of our little city. For several days past they have been receiving large shipments of goods, and yesterday we were shown through their house. Their prints, cloths, cassimeres, &c., are all purchased by the case, and of these they every variety in large quantities. The retail or wholesale purchaser need not go beyond Wittkowsky & Rintels for anything he wants. They have as large a supply of groceries as any house in the city and their stock of boots and shoes is not surpassed in either quality or quantity. They have made a selection of ladies dress goods, for the fall and winter trade, with unusual taste and care, and when we were shown into the millinery department, presided over by Miss Betsy Williams, we were quite bewildered with the richness and rarity of the articles there displayed, which the ladies know so well how to appreciate. The selection of artificial flowers, ribbons, &c., is said to be the rarest and richest ever brought to this market. They are certainly splendid. When the visitor to this splendid establishment has seen the store room proper, he has not seen more than a tithe of the stock, but if he will continue his inspection up stairs and down, visiting the various departments, he will get some idea of its extent. For the Fall and Winter trade we bespeak for these enterprising gentlemen even a larger business than they have heretofore done. Country Merchants should, by all means, call and examine their stock before going North. 32-3m.

The *Herald* says the dizziness by which Weston was attacked on Thursday evening was caused by his going round the same locality so many times in swift succession. But it was only temporary, and it entirely passed away after a night's sleep. In the open air he would probably not have been dizzy. As proof of his wonderful recuperative powers, it was enough to witness yesterday his intelligent face and bright eye, beaming with pluck and forceful will, his easy manners and lively humor, the perfect condition of his feet and ankles, and above all, the extraordinary good time which he made. During his 295th mile he made one circuit—the 2,127th—a distance of a few feet less than one seventh of a mile, in 58 seconds. Another circuit—the 2,128th—he made
